EDUCATION

MOUNT MANSFIELD UNION HS

RELEVANT CLASSES:

- Environmental biology
- Public speaking
- Natural Resources
- Forestry

SKILLS

Team Player

Leadership

Natural History Knowledge

Flexibility

OBJECTIVE

High school student looking to leverage my existing skills in environmental science, like tree and wildlife identification, to learn more about habitat and ecosystem health through the Junior Conservation Program.

EXPERIENCE

LANDSCAPING

Goldenrod Landscaping | Burlington, VT | 20XX-20XX

Confident use of hand and power tools. Completed large plantings, masonry projects, and pulled invasive plants. Worked both in a team and independently.

BABYSITTING

Natalie Nuthatch | Jericho, VT | 20XX-20XX

Regularly babysat children ages 5-12 for a local family. Designed crafts, led games, and prepped food for mealtimes. This built my leadership and supervision skills.

FARM VOLUNTEER

Shelburne Farms | Shelburne, VT | 20XX-20XX

Led farm animal chores for other volunteers and children at the Children's Farmyard including donkeys, chicken, goats, sheep, and pigs. This helped me build my teaching, leadership, and group management skills.
