

Offering high-quality outdoor education is central to Audubon Vermont's mission to engage people of all ages in protecting wildlife and their habitats.

Children begin to love, learn about, and care for their environment at a young age. With over 50 years of developing and teaching outdoor, nature-based programs, Audubon Vermont has become a trusted and greatly valued resource for outdoor education, conservation and recreation in our community.

About Audubon

Audubon Vermont's Mission is to protect birds, wildlife and their habitat through engaging people of all ages in education, conservation, stewardship and action.

The Green Mountain Audubon Center is operated by Audubon Vermont, the state program of the National Audubon Society

CONNECTION, CONSERVATION, ACTION

Our inquiry-based science programs encourage exploration, foster critical thinking, and build confidence. Audubon Vermont's professional Teacher Naturalists design programs focusing on interconnectedness, environmental awareness, and conservation action.

FIELD TRIPS, OUTREACH, SELF-GUIDED VISITS

Choose full-day or half-day programs. Self-guided options available. Visit the Green Mountain Audubon Center in Huntington or invite us for outreach at your school or local park. Field trip fees are \$8 (full-day) \$6 (half-day), or \$2 (self-guided) per student.

MORE THAN JUST SCHOOL PROGRAMS

We offer programming for schools, scouts, adults and senior citizens, work place teams, homeschool families, preschoolers, and camp groups. We design service-learning projects and teacher trainings.

Audubon for All Ages

PRESCHOOL AND KINDERGARTEN

We provide young children with fun learning experiences which honor a child's natural curiosity and desire to play. Our seasonal programs develop a child's ability to pose questions about nature, engage in cooperative play, and build motor skills through games and hands-on outdoor exploration.

ELEMENTARY LEARNERS

Our programs include activities and explorations that work with students' curiosity about the natural world, reinforce the inquiry process, develop observational skills, and accommodate multiple learning styles.

MIDDLE/HIGH SCHOOL, AND ADULTS

Designed to connect to Audubon Vermont's conservation work, these programs build research and critical thinking skills. We focus on conservation actions that impact local communities: forest management, climate, and native plants for birds.

Schedule a Program

WHAT WE TEACH

We offer seasonal programs the whole year round. It's not just about the birds. Explore our website to find a topic that's right for your group.
